

Subject

Subchapter

Course

(4) State and federal laws mandate a variety of celebrations and observances, including Celebrate Freedom Week.

(A) Each social studies class shall include, during Celebrate Freedom Week as provided under the Texas Education Code, §29.907, or during another full school week as determined by the trustees of a school district, appropriate instruction concerning the intent, meaning, and importance of the Declaration of Independence and the U.S. Constitution, including the historical contexts. The study of the Declaration of Independence must include the study of the relationship of the ideas expressed in that document to subsequent American history, the relationship of its ideas to the rich diversity of our people as a nation of immigrants, the American Revolution, the formulation of the U.S. Constitution, and the abolitionist movement, the Emancipation Proclamation and the women's suffrage movement.

(B) Each school district shall require that, during Celebrate Freedom Week or other week of instruction prescribed under subparagraph (A) of this paragraph, students in Grade 7 shall

(C) Knowledge and skills.		
Knowledge and Skills Statement	Student Expectation	Breakout
(1) History. The student understands the development of the field of psychology. The student is expected to:	(A) identify characteristics that differentiate the field of psychology from other related social sciences	(i) identify characteristics that differentiate the field of psychology from other related social sciences
(1) History. The student understands the development of the field of psychology. The student is expected to:	(B) trace the historical development of the contemporary perspectives in psychology, including biological, behavioral, cognitive, sociocultural, humanistic, and psychodynamic	(i) trace the historical development of the contemporary perspectives in psychology, including biological
(1) History. The student understands the development of the field of psychology. The student is expected to:	(B) trace the historical development of the contemporary perspectives in psychology, including biological, behavioral, cognitive, sociocultural, humanistic, and psychodynamic	(ii) trace the historical development of the contemporary perspectives in psychology, including behavioral
