Accountability System for Educator Preparation (ASEP)

This report presents results from the principal survey of first-year teachers. In this survey, principals describe the preparation of teachers in six categories of practices. Principals complete surveys for first-year teachers who graduated at any time during the 5 years prior to the reporting period and who taught in the Texas public school system for a minimum of 5 months during the reporting period.

Per centages note the percent of teachers prepared by an EPP who received an average score of Sufficiently Prepared or Well Prepared when all applicable questions were averaged, and within each of the six categories. The overall percentage serves as indicator 2 of the Accountability System for Educator Preparation (ASEP)

MIDWESTERN STATE UNIVERSITY

Alternative - Institutions that offer teacher training that prepares individuals who already hold a baccalaureate degree. These providers include education service centers, school districts, private entities, community colleges, and universities.

Traditional - Institutions that offer teacher training that is part of an undergraduate degree program offered by colleges and universities.

Traditional/ Alternative - Institutions that offer both Alternative and Traditional Teacher training.
