To support districts in building, expanding, and sustaining strategic compensation systems that are able to differentiate teacher effectiveness in all content and grade areas. These systems will **incentivize teachers to stay, support more robust**

## Goals

1. More districts with TIA systems
2. More teachers eligible for TIA within local systems
3. Increased success rates with implementation and validation
4. Increasing retention for TIA Designated teachers

In the 2024-25 school year, ESCs have with dedicated staff to support districts with developing and implementing TIA to meet the above goals. These supports will prioritize rural and small districts. Additionally, ESCs will serve to provide state-

**Well-trained, consistent tutor** (can be a teacher, paraprofessional, teacher candidate) who builds a strong relationship with students

**High quality instructional material** aligned to standards and core classwork

**One-to-one or small group** for individualized support (1-to-3 maximum ratio recommended)<sup>2</sup>

**Embedded** in the school day or immediately before or after, to maximize student access

**At least three sessions per week** for sustained support, 30 minutes minimum

**Data-driven** with tutors building sessions around student strengths and needs

## ...and can have a significant impact on student outcomes

Additional progress

approve one or more products that use an automated, computerized, or other augmented method for providing supplemental instruction

only if evidence indicates that the product is more effective than the individual or group instruction

Note: **LEAs may use any curricular tool they choose to support accelerated instruction;** Only products approved through this list qualify for a waiver of the 4:1 student to teacher ratio
