maintenance or operations staff installation is an allowable use of funds for this survey.

Provide the total linear footage needed for the district. Add 0 if none.

Provide the total estimated contractor material and installation. Add 0 if none.

The funds in this section were calculated using the following (select all that apply):

- Actual Funds Spent
- Contractor Bid
- District Estimation Process

All wable e nd t p rcha e d r rein rcement
c mp nent are a ll w :

- D r;
- Mechanical d r a t -

Provide the number of students that need to be regraded, the number of students that need to be regraded, the number of students that need to be regraded, and the estimated cost.

_____) n A G r P) A = J L J _____) n A G a P) A = _____) n A G n

Exterior Glass Door

Any glass exterior door that is not within a specified area must be reinforced with forced-entry resistant film.

All wable e nd r gla exterior door are a ll w :

- Purchase forced-entry resistant film; and
- Installation material .

NOTE: contracted installation and payroll for LEA maintenance

Add 0 in ne.

Provide the estimated cost to have the glass reinforced.

Add 0 in ne.

Provide the total square footage window film needed.

Add 0 in ne.

The funds in this section were calculated using the following (select all that apply):

- Actual Funds Spent
- Contractor Bid
- District Estimation Process

Window

Except when inside an exterior enclosed area, defined as an area fully enclosed by a fence and/or wall, all windows that are adjacent to an exterior door and that are a size and position that, if broken, would easily permit an individual to reach in and open the door from the inside, shall be constructed or modified such that the glass cannot be easily broken.

Except when inside an exterior enclosed area, all ground-level windows near exterior doors and that are a size and position that permit entry from the exterior if broken shall be constructed or modified such that the glass cannot be easily broken and all windows that enter through the window frame (for example, by using forced entry-resistant film).

Designed to be opened, all ground level windows have functional locking mechanism that allow the windows to be locked from the inside and, if large enough for an individual to enter when opened or adjacent to a door, be closed and locked when they are not present.

All wable e nd r wind w adjacent t r near exterior d r are a ll w :

eContexte

Count reinforced wind w adjacent to door. Add 0 in ne.

Provide the total square footage associated to reinforced wind w adjacent to door. Add 0 in ne.

Number Wind w Near to Door that could have glass reinforced. Add 0 in ne.

Count reinforced wind w near door. Add 0 in ne.

Indicate any funding source

Do you currently provide telerdent with access to telehealth services?

- Yes
- No

Do you currently provide Physical Health services by telehealth (provided by medical director, nurse, physician assistant, etc.)?

- Yes
- No

Do you currently provide Mental Health services by telehealth (provided by psychiatrist, non-physician mental health professional, licensed clinical social worker, licensed professional counselor, etc.)?

- Yes
- No

Accept at least one of the above service options (A-C)?

How many camps do you have each of the following mental health services on site:

A - Full time non-physician mental health provider?

B - Physical health clinic with accepted mental health service?

C - Full time mental health telehealth service accessible to all students?

Accept at least one of the above service options (A-C)?

Would it be helpful to your child if they had more access to telehealth services for physical health services?

Would it be helpful to your child if they had more access to telehealth services for mental health services?
